1 Statement

The Australasian Society of Clinical and Experimental Pharmacologists and Toxicologists (ASCEPT) is committed to promoting values of equity, diversity, and inclusion in all society agendas, and identifying and addressing biases and prejudices. This commitment aligns with the diverse composition of our membership, fostering an inclusive and culturally competent community, and ensuring equity in all society activities and interactions.

2 Objectives

This Equity, Diversity, and Inclusion (EDI) policy details our strategies to value and respect the diversity of our members and the communities we serve. We are committed to creating programs, events, and activities that are fair, accessible, flexible and inclusive, and are free from bias and discrimination.

Our objectives are to:

- integrate EDI into all aspects of the Society, including the operations of the Board, Executive Officer, and members, as well as the management of programs and events.
- support and empower our members to be able to do their best and bring their whole selves to their engagement in our field.
- support and empower a diversity of researchers, educators, students, professionals, stakeholders and affiliates to participate fully in our events, publications, and programs.
- ensure that all members have equitable access to opportunities available through the initiatives of ASCEPT and are equally rewarded and recognised for their contributions.
- be a Society of choice for pharmacologists and toxicologists from diverse communities and improve our ability to attract, develop, and retain a diverse membership.
- lead by example, so that our members, collaborators, and other organisations within our sector can see the tangible benefits of diversity.

EQUITY

Equity means being fair and reasonable by providing individuals with the necessary resources and opportunities to participate equally with others.

DIVERSITY

Diversity, as referenced in this policy, refers to all the characteristics that make individuals different from each other. It includes characteristics such as Indigeneity, gender, age, linguistic diversity, cultural identity, ability, neurodiversity, LGBTQIA+ identity, carer responsibilities, geographical location, socio-economic status, and faith/religion.

INCLUSION

Inclusion refers to the act of creating professional environments, events, and programs in which any individual or group feels welcomed, respected, valued, and empowered to fully participate and contribute.

Inclusion occurs when the diverse mix of people in our Society, programs, and at our events, experience:

- Feeling valued and respected
- Having a sense of belonging and connection
- Being able to access opportunities and resources
- Being able to contribute their perspectives, experiences, and knowledge.

3 Scope

This policy applies to all members of ASCEPT.
